ENERGYLAB: SUPPORT RESEARCH, CREATE INNOVATION, DISSEMINATE KNOWLEDGE

EnergyLab is a non-profit Foundation.

The Foundation aims to:

- Foster and support research, development and innovation in the fields of energy and environment;
- Support fund-raising;
- Sensitize public opinion
- Deliver added value services to stakeholders (local administration, energetic players, experts and normal people)

THE FOUNDER PARTNERS

EnergyLab Foundation was established in September 2007. The Founder Partners are:

Regional Local Administrations

Regione Lombardia

Universities and Research Centres

Politecnico di Milano

Università Commerciale L. Bocconi

Università degli Studi di Milano

Università Cattolica del Sacro Cuore

Università degli Studi Milano Bicocca

Cesi Ricerca

Energy Players

Fondazione AEM

Fondazione EDISON

ACTIVITIES

Project Area	Dissemination Area	Service Area
<ul style="list-style-type: none"> • Mapping of R&D skills List of R&D skills inside the Universities • Monitoring of funding for R&D Fund-raising (from private or public bodies) for R&D projects • Fund-raising for pilot projects Fund-raising (from public or private bodies) for pilot projects in energetic, social and environmental fields. • R&S support Promotion and Support for R&D projects 	<ul style="list-style-type: none"> • Debate among institution, legislator and energy players • Awareness: spread information and knowledge among people about energetic themes and about environment consequences in Lombardy Region • Communication toward institutional bodies and public opinion • Creation of interchange points between academic realities • Organization of seminars and conferences 	<ul style="list-style-type: none"> • Utilities Campus Vocational Training: interchange activities with foreign countries and experiences • Observatory <ul style="list-style-type: none"> - Statistical data-gathering of sector parameters - Studies on reliability of the energetic system - Analysis of economic and energetic dynamics - Tendencies • Services Services for public bodies, privates and Organizations (energetic diagnosis, services for planning, monitoring of prices etc)

EXPERTS COMMITTEE

Last year we organized “The EnergyLab **Experts Committee**”

The Committee is composed by:

- 15 professors teaching various subjects (technology, economics, law, ...)
- 5 seasoned professionals from industry
- 8 representative from local regional administration

Chairman: Prof. Marco Ricotti

OUR COMPETENCES

Technology

Licencing

Regulation system

Economics

Business model and consortium

Legal

Logist and Waste management

Insurances / Assurance

Communication

Finance

Social impact

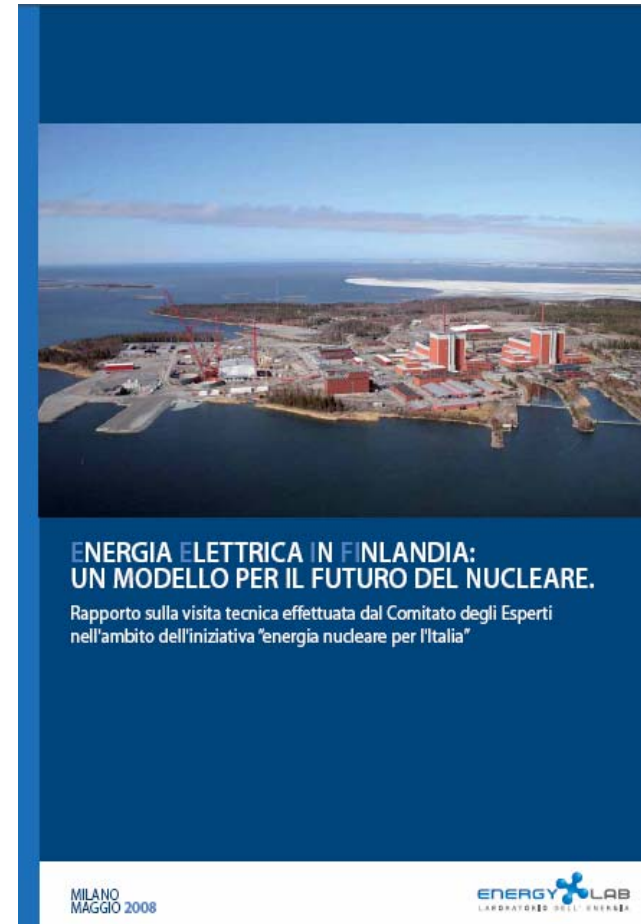

NUCLEAR REPORT

Last September Fondazione EnergyLab published the first report on the conditions for the return to electronuclear power in Italy

ELECTRONUCLEAR POWER IN FINLAND: A MODEL FOR THE FUTURE

Last summer the Expert Committee went to Finland to visit Olkiluoto Nuclear Power Plant

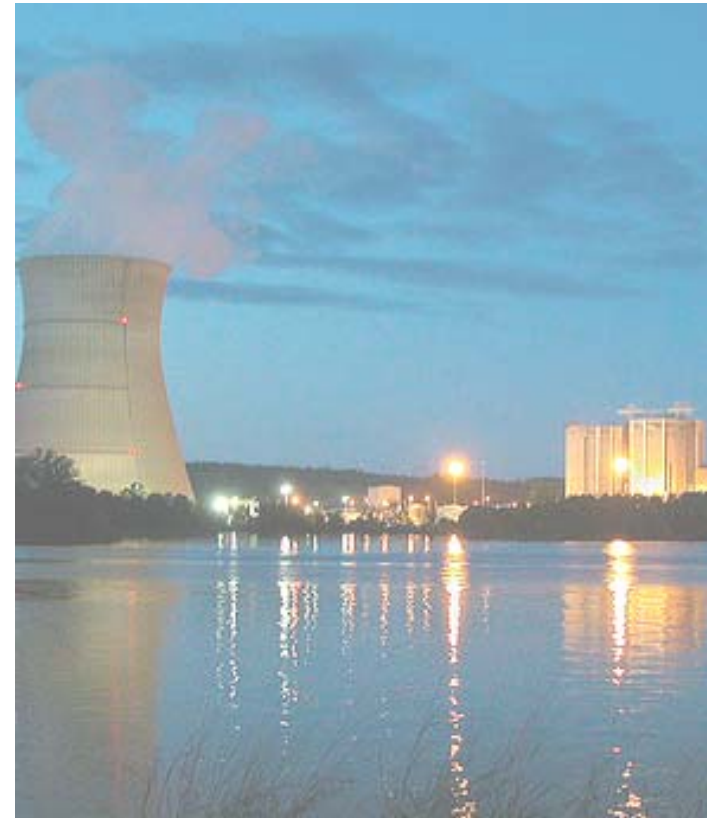

FEASIBILITY STUDY

Edison S.p.A.

A2A S.p.A.

Regione Lombardia

NUCLEAR ENERGY LABORATORY: PROGRAMM 2009-2010

This June we proceed with “**Nuclear Energy Lab**”, whose activities planned for the next six months schedule:

- 5 periodical meetings between members of Experts Committee
- 5 topic seminars
- 4 visits to power plants and Research Centers

The subscription to this Lab is open to:

- local regional administration
- utilities
- plant builders
- financial institutions
- legal, assurance and consultant advisors

Prof. **Carlo Lombardi** is scientific coordinator of Laboratory
